Bantam

High capacity - small sized - rear loading
Refuse Compactor System

Full width rear loading refuse compactor body available in 5 & 6 cubic metres capacity.

BANTAM has been designed to fit onto smaller capacity cab/chassis of 6000kgs (5m³ capacity) 7500kgs (6m³ capacity) gross vehicle mass and to provide excellent payloads.

Both sizes of body utilise the same identical tailgate assembly so that components are interchangeable.

BANTAMS can be fitted with MGB container lifters to empty euro style bins of sizes up to 1100 litres.

BANTAM is available with a simple half pack control system which uses manual levers, or can be equipped with the latest PLC control, push button system to C.E. Mark European specifications.
